Matthews Paint Company color formulas are provided in good faith as a service to our valued customers. We strive continuously to furnish accurate formulas for all color needs. Due to normal variations in pre-printed color cards, pigments, and application methods, Matthews Paint Company cannot warrant color formulas for unverified use as approved color standards or as exact match to every pre-printed color card. Some formulas containing 940 may cause pre-mature fading in exterior exposure. As a best practice we recommend users mix and verify critical colors directly with a customer prior to production and periodically during extended programs. In the unlikely event you experience difficulty with a Matthews formula or color match, please contact us immediately at 1-800-323-6593. Our trained professionals are committed to quickly and expertly satisfying your color needs.
